

STILL RELYING ON THIS TO BRING IN CUSTOMERS?

It's a new marketplace out there. If you don't have an established web presence, you are losing customers. **Guaranteed.**

YOUR FRIEND IN THE INDUSTRY

Ed Roper Designs can provide you a comprehensive, top-to-bottom suite of services to help you get up and running with an online presence. Backed by over 10+ years in the IT and Web Development industry, Ed Roper has the experience and know-how to put you on the right track.

ARE YOU SOCIAL? WHAT'S YOUR GOOGLE RANK?

It's a fact that just a web site no longer does the job. Customers look for you on Facebook, Twitter, blogs, and other online markets. Not only that, but you also need to make sure your pages are indexed and "Google Friendly". This includes using analytics, click-through ads, and doing market research. Ed Roper Designs can help with all of that, and more.

BEAUTIFUL, FUNCTIONAL WEB SITES THAT SELL

Many people can offer you a "web site", but not many have the eye for design, the love for the art, and the knowledge to combine it all together. Ed Roper has experience in the graphics arts, as well as experience in coding functional, standards-compliant web sites using browser compatible and SEO friendly HTML and CSS.
